

Alba Rincón Muñoz

alba@rincon.me | Barcelona, Spain
<https://alba.rincon.me>

I'm a software engineer based in Barcelona with a focus on back-end development. I'm used to working in agile, fast-paced, cross-functional teams where I can learn skills from different people and participate in new developments end-to-end. When I'm not programming at work you can find me investigating and creating small projects that I find useful while I learn something new.

Education Level

Universitat Politècnica de Catalunya

Degree in Informatics Engineering (postgraduate)

Working Experience

Automattic

Feb 2022 – Present

Senior software engineer

- Developed and maintained blocks for the Full Site editing experience in WooCommerce.
- Developed and maintained the WooCommerce Core platform.

Typeform

Jan 2017 – Jan 2022

Senior software engineer

- Designed and developed from scratch the APIs for the new integrations system as part of the company's efforts to open the possibility for external developers to implement native integrations.
- Developed and maintained the APIs for the webhooks service and native integrations platform in Go. Collaborated in the implementation of the React/redux front-end consuming those same APIs. Developed new integrations with external services in Go using OAuth.
- Extracted and migrated an important part of the legacy platform into a new microservice developed in Go.
- Developed and evolved new APIs dedicated to the creation of forms on PHP using the Symfony2 framework.

MyBuilder

Aug 2015 – Dec 2016

Software engineer

- Developed and tested new features and maintained the platform back-end (Symfony2, PHPUnit).
- Implemented new APIs in Symfony 2 and participated in the development of the front-end to consume them using React.

KingEclient

Jul 2010 – Jul 2015

Software engineer

- Developed Drupal 6 & 7 websites.
- Implemented the Drupal back-end and content migration of the new S&D Group website.
- Implemented the Drupal back-end of the new MNAC (Museu Nacional d'Art de Catalunya) website and the migration/synchronization of the museum's catalog.

Skills and Language

- **Skills:** PHP, Go, Javascript, WordPress, WooCommerce, MySQL, Postgres, Git, Docker.
- **Language:** English, Spanish (native), Catalan (native).
